CAROL PHILLA RESIGNS

Carol Philla, secretary to the Mattapoisett Board of Selectmen for the last 10 years, has submitted her resignation to be effective September 18th. Mrs. Philla expressed her regret at leaving the town office but said that she had made the decision to move on to an excellent opportunity now offered her. She will accept a position with Fairhaven Cable Vision. The Selectmen expressed their regret at her leaving and wished her well in her new job.

The Selectmen are accepting applications for the position of Secretary until September 2nd.

POLE APPROVALS

Selectmen approved two pole locations. On Wolf Island Road a 4 pole installation was granted to bring power to a new home. A one pole installation was approved on Aucoot Road for the New England Telephone Company. No objections were made.

ASK BANDSTAND REPAIR

Paul Alves, chairman of the Town Band, requested that the door in the bandstand ceiling be secured and that blown off shingles be replaced. Selectmen will have the work done by a town employee.

WINDMILL COMMITTEE NAMED

A windmill committee consisting of James Shepley, Lois Bassett, George Correa, Jr., Clifford Tripp and Dawn Phillips will explore the possibility of recommending zoning changes that would allow the installation of windmills in Mattapoisett. Selectmen will recommend to the committee that James Shepley be named chairman. The first meeting will be in September. A recent presentation to Selectmen by Charles Coleman and Steve Parker, representatives of Environomics of New Bedford, inspired the study. Mr. Coleman said that recently interest has been shown by Mattapoisett residents in such installations but that the efficiency of windmills is tied directly to tower height which ranges from 60' to 160' with a total cost estimate of $19,500 to $31,060 respectively.

Presently, Mattapoisett by-laws limit the height of new structures to 35'. Other towns, such as Dartmouth, have removed such prohibition by making an exception of windmill towers.

Should the committee decide that changes should be made in the zoning by-law, their recommendations will be used to prepare an article for town meeting consideration.

Dear Friends:

This past June 29th, our Annual Chicken Barbeque was held on the parish grounds located just off route 105 in Rochester.

Your remarkable support of that Barbeque was so much more than a favorable comment on the fine dinner.

Your support was a sign of a wonderful family spirit among the citizens of the tri-town area of Marion, Mattapoisett and Rochester!

We are so happy and so grateful! We thought that a public expression of our appreciation is in order.

Some had to wait in long lines for their dinners. We apologize for that inconvience. We promise to correct that problem before next year's June 27th Barbeque.

For now, we wish only to say "THANK YOU" to all our kind neighbors and friends in the tri-town area.

We appreciate YOU!

Gratefully yours,

Parish Social Committee

In this issue of Presto Press Seniors will find our ad which lists all Minibus trips scheduled for the month of September. Please cut this ad out and save for reference. For all reservations please call at, or phone (758-3758), the Town Hall between the hours of 9:00 a.m. and 12:00 noon, Monday through Friday.

The information on the trips is all in our ad. We are stopping at a different restaurant during the New Bedford Harbor Cruise, and the Village Market Place, opened recently, is a new stopover in Hyannis. This month we have had to duplicate trips from last month in order to accommodate those of you whom we listed as stand-bys. We are, however, going to try to tighten up our reservation time. As before, most reservations will not be available until one week in advance of the day of departure, but when we set an advance date for money to be paid for special trips, unless we indicate otherwise, we are going to try to restrict making these reservations to not more than two weeks

It is unfair to Bernice to have to take a flood of reservations when our ad first comes out, when the cut-off date is often three or four weeks away, and other Seniors have not got around to consulting the ad. It may also keep us from invoking our option of replacing some of you who go almost every time with others who seldom go, and are slow to decide on a reservation.

Adult Evening Classes

A wide variety of self-improvement offerings, including Calligraphy, Introduction to Horticulture, Drawing from Nature, Getting Acquainted with Antiques, and Career and Life Planning for Women, highlight this fall's non-credit adult education program at Bristol Community College's new outreach campus at Old Rochester Regional High School.

The B.C.C. Program replaces the Old Rochester Regional Adult Education Program, discontinued this summer as a consequence of Proposition 2 1/2. The Old Rochester Regional District School Committee directed that the Adult Education Program be run on a self-sustaining basis. The Adult Education Advisory Committee, after study, found it could not run a self-sustaining program for less money than B.C.C. will charge.

As a workable alternative, the Regional Committee authorized Bristol Community College to establish a non-credit program along with

SATURDAY PROGRAM-MEET THE MONARCHS

This summer's last Saturday program at the Children's Museum will be on Monarch butterflies. Mrs. Sally Spooner, in her program, "MEET THE MONARCHS', will introduce children to the fascinating life cycle of this popular orange and black butterfly. The Monarch is not only known for its individual beauty, but for its "house with the golden nails", its jewel-like, green chrysalis which can be found on the Milkweed at this time of year. The story of the Monarch's marathon migration will also be part of the program. Children five and up are welcome to come "Meet the Monarchs". The program this Saturday, August 29th, begins at 2:00 and registration is required; there is a very small charge for non-members.

ADULT WORKSHOP-KEEPING A NATURE JOURNAL

Nighthawk Watch

The Massachusetts Audubon Society is conducting a Nighthawk Migration Watch from August 20 to September 7, 1981. Each fall, nighthawks migrate through New England on their way to wintering grounds in South America. The majority of the nighthawks will pass through from August 27 to September 3. The purpose of the watch is to gather information about nighthawk migration.

Nighthawks are medium-sized birds about the size of robins. They are blackish-brown, have a white throat and a bold white slash near the tip of their long, slender wings. Nighthawks have a distinctive slow, bounding moth-like flight and are often seen flying over the tree tops or near water.

On warm summer evenings in mid-August, the first of a steady procession of migrating nighthawks begins to thread its way south. In the Greater Boston area, nighthawks might be familiar to devotees of night games at Fenway Park, or at the tennis matches at Longwood in Brookline where the nighthawks can be seen hawking around

women will have the same handicap, except for age, as the juniors.

The clubhouse will be open for refreshments. Those interested in becoming members can obtain applications from the clubhouse.

OLDER DOGS MAKE TERRIFIC PETS

You can't teach an old dog new tricks—or can you?

Pet experts say that older dogs can make ideal pets for youngsters, senior citizens and working people. And, like pups, they can be more than eager to please and love their owners.

Mature pets also can offer many added bonuses:

- They are housebroken.
- They already have learned good obedience habits.
- They are full-grown, thereby giving a family a better idea of how much space they will need.
- They can better adjust to the needs and personalities of different family members.

Because they're often more relaxed, older pets can make gentle companions. That's because they are apt to sleep, rather than play, while their owner is away.

Healthy, full-grown pets can be easily acquired at a local shelter. Since shelters offer a variety of well-behaved dogs and cats, a family can choose the pet most suited to its needs.

Riders may race in two ways. They may run in regular races for trophies and points against others of the same age or they may race in open races just for trophies against a broader age span. Trophies will be awarded to each 1st, 2nd and 3rd place winner in each class. There are powder puff races for the girls who show an interest and do not wish to race against the boys. The riders over 19 years of age may race a cruiser, 26 inch wheel motocross bicycle.

This track is sanctioned by the NEBA (New England Bicycle Association). There are twenty-one other NEBA tracks throughout New England. Racers must join the NEBA to race. There is a membership charge and also a charge to race.

Racing takes place every Sunday at 12 noon. Riders must arrive between 10:00 and 11:00 a.m. for pre-registration. Practice sessions are held every Saturday morning for which there is a small charge. For further details call 993-2525.

October 2, 1981 is the deadline set by the Massachusetts Council on the Arts and Humanities for its Historic Conservation program. This annual funding program provides matching funds for professional conservation of objects with artistic or historic significance. Although funds cannot be provided for architectural restoration, applications for the preservation of paintings, drawings, prints, decorative arts, manuscripts, documents and rare books are accepted. In making today's announcement, Council Executive Director Anne Hawley said "When the Council was established by the Legislature in 1966, part of our mandate was 'to strengthen and preserve our various heritages'. We feel that the Historic Conservation program is beginning to accomplish this, by helping the Commonwealth's cities and towns, libraries, historical societies, and cultural organizations preserve artifacts of our history. By making these artifacts available to the public, a greater appreciation of our rich cultural heritage can result."

Last year, the Council awarded $40,380 to 63 non-profit groups statewide seeking to preserve a variety of historic objects. Upon completion of the restoration all of the materials are put on public display.

Funding decisions are based on the artistic or historic merit of the materials to be conserved, the importance of the material to the collection, accessibility of the material to the public, the applicant's ability to preserve the material, and financial need. After a panel reviews an application,

AUTUMN MOTOR VEHICLE INSPECTION

Registrar of Motor Vehicles Richard E. McLaughlin says the six-week autumn semi-annual motor vehicle inspection, which starts September 1 and runs through Thursday, October 15, will be a rigorous one for the owners of the 3 1/2 million registered motor vehicles and motorcycles.

"I caution the owners to get their vehicles to one of the 4,200 Registry approved state inspection stations as soon as possible," Registrar McLaughlin said.
